WHO WE ARE

A Passion for the Outdoors, Technology in the Service of Taste

Levigmatic srl is an Italian company that has been active on the market since 1988, with a core business focused on manufacturing and producing cooking plates for major professional catering companies.

In 2005, the Pla.Net outdoor cooking brand was created, introducing high-end outdoor cooking solutions designed for those who seek quality, durability, and design.

We design, produce, and distribute solutions that transform any outdoor space into a true open-air kitchen.

WHAT WE DO

Shaping your Ideal Outdoor Kitchen

We offer a complete range of products for outdoor cooking:

- Stainless-steel plancha cooking systems, gas and electric
- Gas and electric cooking accessories
- Modular outdoor kitchens (four sizes available in the catalogue)
- Accessories, covers, and cleaning systems

Key strengths:

- 100% Italian design
- Premium materials and durable finishes
- Easy to use and maintain
- Modularity and customizable solutions

WHO WE SERVE

Our Ideal Partners

We work with and build trusted relationships with:

- Specialized outdoor and garden retailers
- Organized distributors for outdoor products
- Designers and outdoor furnishing showrooms
- International partners across Europe, the UK, and the Middle East

We operate in 24 countries and provide supply solutions and support for expanding international markets.

OUR BESTSELLER

Our Most Requested Models

QUATTROPORTE DARK

A true ready-to-use outdoor kitchen featuring a minimal, elegant, powder-coated design. The cooking surface can be customized.

BUILT-IN ELECTRIC

Our full-electric built-in modules, available in two different sizes.

UNIT

Electric or gas cooking plates in a compact countertop version, ideal for small terraces or limited outdoor spaces.

WAREHOUSE AND PACKAGING

Efficient Storage and Ready-to-Use Delivery

We maintain an internal warehouse to keep frequently used materials and all customer-ordered stations and kitchen modules readily available.

Every package is carefully handled in-house to ensure safety and quality. For maximum convenience, stations and kitchen modules are delivered partially assembled and ready for immediate use, making setup fast and effortless.

OUR PRODUCTION STANDARDS AND CERTIFICATIONS

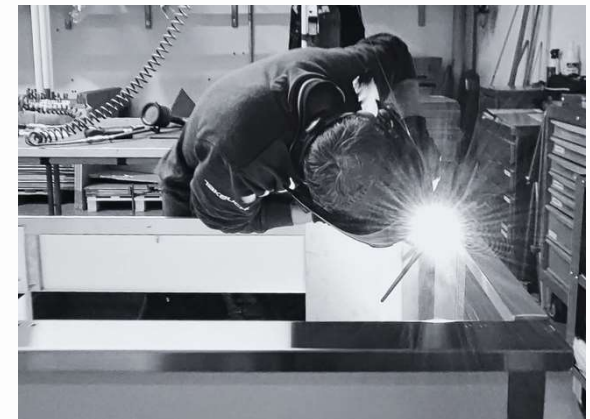

Where Quality Begins: Production and Rigorous Control

Every product is internally designed and manufactured to the highest quality standards.

We work with certified, carefully selected suppliers to ensure:

- Premium materials (304L stainless steel)
- Carefully controlled assembly processes
- Functional testing and multiple quality checks
- Durable packaging, ready for distribution

Each unit is thoroughly inspected before shipment to guarantee maximum reliability for the end customer.

DEDICATED CUSTOMER SUPPORT

An Experience That Delights the End Customer

All our products are designed to provide a complete and memorable experience:

- Easy installation and intuitive use
- Design that enhances every outdoor space
- Chef-level cooking performance
- Compatible accessories for a tailored experience
- High customer satisfaction and loyalty

A happy customer is a returning customer.
